Finishing the main level is a large family room. Off the family room are stairs leading to the lower level. There you'll find another 2000+ sq feet of space currently being used for the home gym and play area. This opens out to the entertaining/pool area. Conveniently located is a full bath, easy access to the pool and pond. Upstairs is the second large en-suite bedroom, also with a walk in closet and balcony. There's an additional full walk in space providing plenty of storage that could be finished if desired. Back downstairs, an enclosed breezeway leads you to the heated, oversized, 3 car garage. Above the garage is a complete guest suite, where your guests can cook in their own kitchen, with granite countertops. The guest suite has a full bath and laundry.
