When you buy something from a Master Craftsman, you're buying more than a home, you are buying hundreds of hours of frustration and moments of pure joy. You are buying a piece of a heart and soul. This home is just that. The 18' vaulted ceilings, Oak flooring, the six panel doors, kitchen cabinets, bathroom cabinets, built ins ..etc. were hand made, one at a time. The Beautiful blue stone fireplace is made with the stone mined in this area, it has a 100 yr. old chestnut beam as the mantel and a built in shadow box. 3 Bedrooms 2.5 baths, 8x11 mud room with a pantry and washer & dryer, all on the same level. The loft on the second floor is awesome, with a large window looking at the most beautiful Mountain view. So much storage in the attic with entrances on either side of the loft. A master Craftsman has to have a place to work, so he built a 20 x 40 ft work shop nestled in among the beautiful trees, rock cropping's & stone walls, where you can find peace and tranquility. It has its own driveway and an overhead door and separate 200 amp service. Use it as a studio, workshop or as your garage. All this on close to 3 acres of land, no thru traffic, dead end. A close drive to Woodstock, Hunter Mountain & Saugerties Village.
