Are you in search of a premium property with breathtaking panoramic views of the Catskills, where you can turn your dream home into a reality? If an unparalleled Catskills vista is at the forefront of your criteria, you will want to come experience this recently subdivided 7 acre shovel ready building site with driveway installed with buried 200-amp power, a newly drilled well and Board of Health septic approval in place. Nestled on the grounds of an old stone quarry that echoes the rich history of the Hudson Valley, the building site offers ample space, providing an expansive canvas for imaginative landscaping. As you enter the property, you are met with a dramatic sixty-foot cliff face which flanks the eastern boundary, providing a truly unique backdrop for your home.
